(54) Title: AUDIO VISUAL SURFACE ASSEMBLY

(57) Abstract: There is disclosed an arrangement for a visual and/ or audio presentation wherein two or more enclosure modules are mounted adjacent each other. The modules each contain an enclosure volume, within which an audio or other component may be housed. The arrangement also provides a flat or planar surface on which advertising or a visual presentation may be displayed. Furthermore, there is provided a channel behind the planar surface, through which cables or the like may be laid.
